(4) *Position 10 through 13.* Enter the serial number of the instrument in these positions. A separate series of serial numbers may be used for any type of instrument listed in paragraph (a)(3) of this section. Activities shall assign such series of PII numbers sequentially. An activity may reserve blocks of numbers or alpha-numeric numbers for use by its various components.

(b) *Illustration of PII number.* The following illustrates a properly configured PII number—

Position	Contents	N00062	90	C	0001
1-6	Identification of department/agency office				
7-8	Last two digits of the fiscal year in which the PII number is assigned				
9	Type of instrument

### 204.7004 Supplementary PII numbers.

(a) *Uses of the supplementary number.* Use supplementary numbers with the basic PII number, to identify—

- (1) Amendments to solicitations;
- (2) Modifications to contracts and agreements, including provisioned item orders; and
- (3) Calls or orders under contracts, basic ordering agreements, or blanket purchase agreements, issued by the contracting office or by a DoD activity other than the contracting office, in-

cluding DoD orders against Federal supply schedules.

(b) *Amendments to solicitations.* Number amendments to solicitations sequentially using a four position numeric serial number added to the basic PII number and beginning with 0001, e.g., N00062-91-R-1234-0001.

(c) *Modifications to contracts and agreements.* (1) Number modifications to contracts and agreements using a six position alpha-numeric added to the basic PII number.

(2) *Position 1.* Identify the office issuing the modification—

- (i) Contract administration office—A
- (ii) Contracting office—P

(3) *Positions 2 through 3.* These are the first two digits in a serial number. They may be either alpha or numeric. Use the letters K, L, M, N, P, Q, S, T, U, V, W, X, Y, or Z only in the second position and only in the following circumstances—

(i) Use K, L, M, N, P, and Q in the second position only if the modification is issued by the Air Force and is a provisioned item order.

(ii) Use S, and only S, in the second position to identify modifications issued to provide initial or amended shipping instructions when—

(A) The contract has either FOB origin or destination delivery terms; and

(B) The price changes.

(iii) Use T, U, V, W, X, or Y, and only those characters, in the second position to identify modifications issued to provide initial or amended shipping instructions when—

(A) The contract has FOB origin delivery terms; and

(B) The price does not change.

(iv) Only use Z in the second position to identify a modification which defines a letter contract.

(4) *Positions 4 through 6.* These positions are always numeric. Use a separate series of serial numbers for each type of modification listed in paragraph (c)(3) of this section. Examples of proper numbering for positions 2-6 (the first position will be either “A” or “P”) are as follows:

Normal modification	Provisioned items order (reserved for exclusive use by the Air Force only)	Shipping instructions
00001-99999 .....	K0001-K9999	S0001-S9999
then .....	KA001-KZ999	SA001-SZ999
A0001-A9999 .....	L0001-L9999	T0001-T9999
B0001-B9999 .....	LA001-LZ999	TA001-TZ999
and so on to .....	M0001-M9999	U0001-U9999
H0001-H9999 .....	MA001-MZ999	UA001-UZ999
then .....	N0001-N9999	V0001-V9999
J0001-J9999 .....	NA001-NZ999	VA001-VZ999
then .....	P0001-P9999	W0001-W9999
R0001-R9999 .....	PA001-PZ999	WA001-WZ999
then .....	Q0001-Q9999	X0001-X9999
AA001-AZ999 .....	QA001-QZ999	XA001-XZ999
then .....		Y0001-Y9999
JA001-JZ999 .....		YA001-YZ999
RA001-RZ999 .....		

(5) If the contract administration office is changing the contract administration or disbursement office for the first time and is using computer generated modifications to notify many offices, it uses the six position supplementary number ARZ999. If either office has to be changed again during the life of the contract, the supplementary number will be ARZ998, and on down as needed.

(6) Each office authorized to issue modifications shall assign the supplementary identification numbers in sequence. Do not assign the numbers until it has been determined that a modification is to be issued.

(d) *Delivery orders under indefinite delivery contracts, orders under basic ordering agreements, and calls under blanket purchase agreements.* (1) Calls or orders issued by the office issuing the contract or agreement. Use a four position alpha-numeric call or order serial number added to the basic PII number. These shall be identified by using serial numbers beginning 0001 through 9999. When the numeric identifiers run out, use alpha characters in the third and fourth positions. Never use alpha characters in the first and second positions.

(2) Orders placed against another activity's contract or agreement.

(i) If the office placing the order or call is different from the office identified in the basic PII number, assign a serial number to the order or call. The first and second positions contain the call/order code assigned to the ordering office in accordance with 204.7005. Do not use the letters A or P in the first position. The third and fourth positions are a two position serial number assigned by the ordering office. The series will begin with 01. When the numbers exceed 99, the office will assign a uniform series of identifiers containing alpha and/or numeric characters, e.g., Basic #: N00383-91-D-0001 serial #: TU01.

(ii) If an office is placing calls or orders with NIB, NISH, or UNICOR, the office shall identify the instrument with a 13 position supplementary PII number using an F in the 9th position. Modifications to these calls or orders shall be numbered in accordance with paragraph (c) of this section, e.g.,

## Department of Defense

## 204.7101

Order #: DLA100-91-F-0001 modification #: A00001.

(e) *Modifications to calls or orders.* Use a two position alpha-numeric suffix, known as a call or order modification indicator, to identify a modification to a call or order.

(1) Modifications to a call or order issued by a purchasing office begin with 01, 02, and so on through 99, then B1 through B9, BA through BZ, C1 through C9, and so on through ZZ.

(2) Modifications to a call or order issued by a contract administration office begin with 1A, 1B, and so on through 9Z, followed by A1, A2, and so on to A9, then AA, AB, and so on through AZ.

## Subpart 204.71—Uniform Contract Line Item Numbering System

### 204.7100 Scope.

This subpart prescribes policies and procedures for assigning contract line item numbers.

### 204.7101 Definitions.

*Accounting classification reference number (ACRN)* means a two position alpha or alpha/numeric control code used as a method of relating the accounting classification citation to detailed line item information contained in the schedule.

*Attachment* means any documentation, appended to a contract or incorporated by reference, which does not establish a requirement for deliverables.

*Definitized item*, as used in this subpart, means an item for which a firm price has been established in the basic contract or by modification.

*Exhibit* means a document, referred to in a contract, which is attached and establishes requirements for deliverables. The term shall not be used to refer to any other kind of attachment to a contract. The DD Form 1423, Contract Data Requirements List, is always an exhibit, rather than an attachment.

*Nonseverable deliverable*, as used in this subpart, means a deliverable item that is a single end product or undertaking, entire in nature, that cannot be feasibly subdivided into discrete elements or phases without losing its identity.

*Undefinitized item*, as used in this subpart, means an item for which a price
